## Summary

Federal civil rights laws prohibit discrimination of members, applicants, enrollees, and beneficiaries in programs and activities that receive Federal financial assistance. This Civil Rights Compliance plan details how Richland County, WI and its subrecipients will comply with Federal Civil Rights Laws during the 2022 – 2025 compliance period.

Richland County, WI complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Richland County, WI does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

The Plan is reviewed and updated on an annual basis throughout the compliance period by the Civil Rights Officer. The Civil Rights Compliance plan is available to any state agency or member of the public.

This plan was created through an analysis of available customer service data from county departments that receive Federal funding by way of the State of Wisconsin Department of Health Services (DHS) and the Department of Children and Families (DCF). In addition to the analysis of data, the plan reviewed internal operations and procedures to ensure the county is providing meaningful access to programs and services without discrimination, proper training on civil rights compliance is being done, and the required discrimination and compliant procedures are in place and being followed.

# Recommendations

In each section of this plan, the required checklists and statements were completed to the best of the County's ability. Following this, Findings and Recommendations are made. Recommendations represent the County's plan of action over the next three years to ensure civil rights compliance. Each recommendation has an action or responsibility with a timeline, responsible party, and supporting documents.

## Responsible Party

Throughout the plan, numerous roles and responsibilities are identified including the Equal Opportunity Coordinator, the Civil Rights Compliance Officer, and the Limited English Proficiency Coordinator. Richland County, as a smaller rural county, has limited capacity for each of these designated roles and responsibilities. For the period of this plan, the County Administrator assumes the responsibility of these roles, and will act as the Civil Rights Compliance Officer for the County.

In support of the County Administrator, Department Managers will provide the required documentation annually to ensure compliance. Department Managers are responsible for ensuring the federal funding is available to the qualifying public and have the ability to collect the required data at point of service.

## Timeline

Each recommendation, or plan of action to ensure compliance, in this plan also has a timeline. The intention of this plan is to ensure the required actions are taking place continuously. Recommendations that address issues of coordination, procedure, and self-evaluation are recommended to take place on an annual basis. The annual recommendations also ensure that the plan remains current and an easy transition into the next three-year plan period takes place in 2025.

## Supporting Documents

Civil Rights Compliance not only requires the County to comply with Federal Civil Rights Laws in the delivery of services, but to also document that it is doing so. This documentation comes with administrative tasks and coordination to ensure that every County department is collecting the required data, providing meaningful access, and ensuring the required documents are available to customers. Several recommendations include the development and use of county forms to ensure the efficient and coordinated compliance with civil rights laws. Additionally, these documents ensure the County can review, revise, and complete the three-year update to the plan efficiently.

## **Key Recommendations**

### **Civil Rights Compliance Officer Role and Responsibility**

The plan identifies that in the past the County has not maintained the capacity to systematically document civil rights compliance at the County level. The primary recommendation is for the County Administrator to assume the responsibility of the Civil Rights Compliance Officer (CRC Officer) and ensure county departments are compliant in providing service to customers and documenting that service. With a responsible party, the county can ensure civil rights compliance and efficiently demonstrate this compliance in its future three-year plans.

### **County Wide Procedures and Annual Review**

The primary point of compliance comes at the delivery of service to customers (county residents). This service is provided at the county department level. Departments identified in this plan required to demonstrate civil rights compliance include the County Ambulance Service, the Department of Health and Human Services, and the Department of Child Support. Each of these departments found the requirements of completing this plan to present challenges. The plan recommends the county adopt procedures to be done at the county level for all departments receiving federal funding. This includes the annual submission of customer service data to the CRC Officer (County Administrator), an annual audit of these departments to ensure meaningful access is available, the completion of required training, and the identification of county resources to ensure compliance (e.g., a county listing of translator services).

### **Vital Documents and Data Collection**

In addition to the recommendation of county wide procedures, this plan recommends the establishment and accessibility of uniform documents to ensure meaningful access to services and required documentation. Many of the required documents are provided by DHS and DCF. Other documents, such as the annual report to the CRC Officer should be established at the county level. County departments that have never received federal funding may receive funding in the future with no knowledge or history of civil rights compliance. The County, and the Department Managers, will benefit from an established annual form – the *civil rights compliance report*.

## Data Collection

Richland County (and/or subrecipients) must collect and keep civil rights compliance data to allow the State Agencies to ascertain whether the recipient (and/or subrecipient) has complied or is complying with applicable civil rights laws.

Table 1 represents the data Richland County is required to collect and submit to the County’s Civil Rights Compliance Officer (County Administrator).

<b>Table 1: Data Collection for Service Delivery - Our agency has a system that records the following:</b>

<b>If you responded “No” to any of the above questions, describe your plan for addressing the requirement(s), including target dates for completion of milestones, below: (see Findings and Recommendations)</b>		

## Findings and Recommendations

Only recently has Richland County had the capacity to administer customer service data collection. With the recent addition of a County Administrator (CRC Officer) the county will implement a systematic collection of customer service data.

Richland County administers federally funded programs through respective departments, primarily Health and Human Services. This data is gathered at the program level through the administration of services and is the responsibility of department managers. Current practice does not transmit data to the CRC Officer. While the county does collect much of the required data, there is required data not being collected by all departments, data is difficult to re-access by the departments, and the data is not available to the CRC Officer.

The data received to complete this plan often did not include “other” or “more than one,” but rather

included “unknown.” County departments need to adjust their customer service self-identification questionnaire in order to collect the required data on “other” and “more than one.” Without this data, an adequate customer service analysis cannot be done. The designation of “unknown” also points to the data not necessarily being self-reported by customers. In the future, customer service applications should collect data that reflects the requirements of the Civil Rights Compliance Plan.

Table 2 represents recommendations to accomplish Data Collection in a manner that satisfies federal and state requirements, and considers the limitations and needs of the county and its departments.

# Customer Service Population Data Analysis

Each Richland County recipient (and/or subrecipients) is required to complete the Customer Service Population Data Analysis (CSPA) for each service or activity funding through DCF and DHS. The CSPA reviews each recipient’s accessibility and determines if barriers are present that prevent protected groups from participating.

Appendix B offers a separate CSPA for each program or activity receiving federal funding. The CSPA is completed with the most recent Census or American Community Survey numbers as well as the most recent year’s customer served data.

If the population of each category actually served is plus or minus 2 percentage points of the eligible population, that category of the population is being effectively served. If the population in a category actually served is more than 2% greater than the eligible population, that category may be over-represented in the program’s customer service population. Over representation may reflect the recipient is meeting the needs of that category, outreach efforts to that category are successful, or other factors that make that category more likely to be served. Over-representation of one category is not necessarily a sign that the program is not serving all of the categories of population equally, but it does mean one or more the other categories may be under represented.

If a category of population served is more than the absolute value of -2%, that category is under-represented in the program’s customer population. In the CRC Plan, the recipient should evaluate what factors may be contributing to that category being represented.

## Findings and Recommendations

The primary findings from the Customer Service Population Analysis were unsurprising. Richland County’s small and mostly homogeneously white population presents problems in identifying over-represented and under-represented populations. The race, ethnicity, or disability status of just one customer can skew the data in programs with limited overall customers. The other primary finding was that some programs do not appear to be collecting data adequately or correctly, this was addressed in the Data Collection segment of this plan.

Table 3 reflects recommendations for the County to implement to meet the requirements necessary to show civil rights compliance.

# Limited English Proficiency (LEP) Customer Data Analysis

The purpose of the LEP analysis is to assist Richland County with determining the level of obligation and the methods of providing oral interpretation and written translation language assistance to customers. The LEP analysis also helps to determine which language groups are likely to be encountered, to ensure that you provide meaningful access to LEP individuals in your service area.

The LEP analysis assists recipients in planning for the translations of vital documents to meet the Federal “Safe Harbor” guidelines for written translation. The requirement that Richland County translate vital documents is one way to provide meaningful access to LEP customers. Providing interpretation services at no cost to the LEP customer is a separate and distinct requirement, which generally entails providing qualified interpreters (in person or by telephone) at no cost to the LEP individual. The analysis examines the degree to which members of these language groups are being served and the steps the County needs to take to provide meaningful access to those individuals. If a language group is likely to be encountered, the County should be prepared to provide oral interpretation language assistance (in person or by telephone) at no cost to the LEP applicant or member.

Appendix C is intended to offers a separate LEP Analysis for each program or activity receiving federal funding. Data on the language requirements of LEP customers was not provided for the writing of this plan. The appendix represents the numbers of potential LEP customers and a table showing the number of LEP Customers. Analysis is completed with the most recent Census or American Community Survey numbers as well as the most recent year’s customer served data.

<b>If you responded "No" to a question above, describe your plan for addressing this requirement, including target dates for completion, below: See Findings and Recommendations.</b>			

## Findings and Recommendations

Within Richland County, federally funded programs are administered by department directors and non-discrimination notices are done at the program level, nearest the customer. Similar to data collection, there is no oversight to ensure each department is utilizing up-to-date and appropriate notifications in appropriate locations. As with the findings and recommendations with data collection, Richland County has only recently established the capacity to undertake a systematic approach to ensuring notifications are appropriately posted and up-to-date.

a) Handling service delivery and language access complaints.	Yes	No	
b) Disseminating equal opportunity and language access information to provider staff and interested persons.	Yes	No	
c) Preparing equal opportunity and language access plans and reports.	Yes	No	
d) Monitoring, performing comprehensive compliance reviews, and evaluating equal opportunity and language access activities on a program-by-program basis for the entity.	Yes	No	
e) Monitoring and evaluating civil rights, cultural awareness, disability sensitivity, and language needs of entity staff and arranging training.	Yes	No	
f) Monitoring the records and files relative to the entity's civil rights program and ensuring that subrecipients are maintaining civil rights records.	Yes	No	
g) Monitoring the civil rights compliance of funded subrecipients, if entity has any.	Yes	No	N/A
h) Meeting with the CEO, President, Director, or Administrator of the entity to provide input into policies and procedures to improve language access and equal opportunity in employment and service delivery.	Yes	No	
<b>If you responded "No" to a question above, describe your plan for addressing this requirement, including target dates for completion, below: (see Findings and Recommendations)</b>			

## Findings and Recommendations

Again, only recently has Richland County had the capacity to properly undertake the duties of the EOC and LEP Coordinator. Beginning in 2022, the County Administrator will ensure the responsibilities, including the training, included in the above table are being done.

## Meaningful Access to Programs and Services

Richland County is providing meaningful access to programs and services at the program level but more can be done to assure compliance and coordination across the county. The Civil Rights Compliance Officer should coordinate to ensure each department is in compliance with civil rights laws and that each department has access to services for LEP individuals.

The following table evaluates Richland County’s meaningful access to services by individuals who are LEP. The following links access posters that are required to be posted. For preliterate populations or language groups, an audio format version of this information may be provided.

# Self-Evaluation of Accessibility to Programs and Services

Recipients (Richland County) of Federal financial assistance shall not:

- Exclude a person with a disability from a program or activity;
- Deny a person with a disability the benefits of a program or activity;
- Afford a person with a disability an opportunity to participate in or benefit from a benefit or service that is not equal to what is afforded others;
- Provide a benefit or service to a person with a disability that is not as effective as what is provided others;
- Provide different or separate benefits or services to a person with a disability unless necessary to provide benefits or services that are as effective as what is provided others; or
- Apply eligibility criteria that tend to screen out persons with disabilities unless necessary for the provision of the service, program, or activity.

Recipients (Richland County) must:

- Provide services and programs in the most integrated setting appropriate to the needs of the qualified individual with a disability;
- Ensure that programs, services, activities, and facilities are accessible;
- Make reasonable modifications in their policies, practices, and procedures to avoid discrimination on the basis of disability, unless it would result in a fundamental alteration of the program;
- Provide auxiliary aids to persons with disabilities, at no additional cost, where necessary to afford an equal opportunity to participate in or benefit from a program or activity;
- Designate a responsible employee to coordinate their efforts to comply with Section 504 and the Co-authored by: Departments of Health Services and Children and Families 26 ADA;
- Adopt grievance procedures to handle complaints of disability discrimination in their programs and activities; and
- Provide notice that indicates:
  - o That the covered entity does not discriminate on the basis of disability;
  - o How to contact the employee who coordinates the covered entity's efforts to comply with the law; and
  - o Information about the grievance procedures.

See HHS Disability Rights Guidance: <https://www.hhs.gov/civil-rights/for-individuals/disability/index.html>

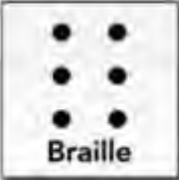

Regulations implementing Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act require recipients to evaluate their current services, policies and practices that do not or may not meet the nondiscrimination on the basis of disability requirements, and based on that evaluation, proceed to make the necessary modifications to come into compliance.

For more information about compliance with nondiscrimination on the basis of disability see U.S. DOJ ADA Primer ([https://www.ada.gov/regs2010/titleII\\_2010/title\\_ii\\_primer.html](https://www.ada.gov/regs2010/titleII_2010/title_ii_primer.html)).

The following table is meant to assist in determining a Richland County’s compliance with nondiscrimination in services and programs on the basis of disability. Complete the checklist for each statement and provide clarifying information as appropriate.

# Discrimination Compliant/Grievance Procedures

Richland County must develop and implement an effective system for handling complaints and grievances and may use the model provided in Appendix F to fulfill this requirement. Complainants who disagree with an informal discrimination complaint investigation decision and who decide to pursue a formal complaint with the appropriate State Agency should be assisted in referring the complainant to the appropriate State Agency for further investigation, if warranted.

DHS and DCF complaint forms are accessible on each State Agency’s website.

Age discrimination complaints involving recipients that administer USDA-FNS programs, services and activities must be filed directly with the U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410. Call toll free 866-623-9992 to request a form, or fax to 202-690-7442. Individuals who are deaf, hard of hearing or have speech disabilities may contact USDA through the Federal Relay Services at: 800- 877-8339, or 800-845-6136 (Spanish).

The following table is an evaluation of Richland County’s Discrimination Compliant and Grievance Procedures.

# Appendix A: Letter of Assurance

**CIVIL RIGHTS COMPLIANCE LETTER OF ASSURANCE**

Children and Families  
DCF-F-154-E

Health Services  
F-00165 (12/2021)

Civil Rights Compliance Period: January 1, 2022 to December 31, 2025:

Richland County, WI (hereinafter "Recipient") agrees that compliance with this assurance constitutes a condition of receiving Federal financial assistance through the Department of Health Services and the Department of Children and Families (the "State Agencies"). This assurance is binding upon Recipient, its successors, transferees, and assignees throughout the Compliance Period, or as long as Federal financial assistance is extended to Recipient, whichever is shorter. The State Agency from which the Federal funds will be paid may enforce this Assurance as a condition of receiving such funds.

Recipient agrees to comply with civil rights monitoring reviews, including providing access to records and requested files related to membership, enrollment and services in the program or activity maintained by the Recipient and, to the extent within its authority, arranging for interviews with staff, clients and applicants for services, subrecipients, and referral agencies. Recipient agrees to cooperate with the State Agency or State Agencies in developing, implementing, and monitoring corrective action plans that result from substantiated civil rights deficiencies.

**By signing on behalf of Recipient, I state that I am authorized to bind Recipient to the terms of this Assurance and to commit the Recipient to the above provisions.**

SIGNATURE – Authorized Representative

Date: 18 Jan 2022

Printed name: Clinton Langreck

Title: Richland County Administrator

**Instructions for completing Letter of Assurance**

- Complete this signature page
- Include Appendices A-1, A-2 and A-3 with the signature page
- Updates to appendices should be submitted if there are staff or funding changes

**RECIPIENT HEREBY AGREES THAT IT WILL COMPLY WITH ALL APPLICABLE FEDERAL CIVIL RIGHTS LAWS:**

Federal civil rights laws prohibit discrimination of members, applicants, enrollees, and beneficiaries in any programs or activities that receive Federal financial assistance. Those laws include, Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, Title IX of the Educational Amendments of 1972, the Age Discrimination Act of 1975, Section 1557 of the Patient Protection and Affordable Care Act of 2010, and their respective implementing regulations, and prohibit recipients and subrecipients of Federal financial assistance from discriminating on the basis of race, color, national origin, sex, age, disability, and, in some programs, religious creed or political affiliation or beliefs, in their programs or activities, and in retaliating or engaging in reprisals against individuals for opposing discrimination protected under these laws. In addition to those Federal civil rights laws, other laws may apply to recipients of specific Federal programs, and the Recipient must comply with all applicable Federal civil rights laws. Civil rights laws may be created or amended during the time of the Compliance Period. Recipient agrees to comply with the current laws throughout the Compliance Period.

In pursuit of compliance with those laws, the Recipient shall, but not exclusively, do the following:

1. Provide training to all staff on civil rights requirements and methods of providing meaningful access to individuals with limited English proficiency (LEP) and effective communication and equal access to individuals with disabilities.
2. Provide language assistance services, including translated documents and oral interpretation, free of charge and in a timely manner, when such services are necessary to provide meaningful access to LEP individuals.
3. Communicate effectively with people who have vision, hearing, or speech disabilities and provide auxiliary aids and services when needed to individuals with communications disabilities at no cost to the person with a disability.
4. Make all programs and activities provided through electronic and information technology accessible to individuals with disabilities and ensure nondiscrimination in providing services and benefits.
5. Ensure that any newly constructed and altered facilities are physically accessible to individuals with disabilities.
6. Have in place a discrimination complaint process and provide notices of its complaint process, translated into the major primary language groups of the LEP individuals in its service area.
7. Post required nondiscrimination statements and notices.
8. Provide accessible programs, facilities, and reasonable accommodations to service participants/customers with disabilities.
9. Provide translation of vital documents for each eligible LEP language group that constitutes at least 5 percent or 1,000 individuals, whichever is less, of the population eligible to be served or likely to be encountered in the recipient's service area.

### Customer Service Population Data Analysis

List the population(s) in the CSPA data chart with Percentage-Point Difference(s) **greater than 2.00** (for example, 3.00% or 4.00%): *These categories may be **over-represented** in the program's customer population.*<sup>4</sup>

Female

List the population(s) in the CSPA data chart with Percentage-Point Difference(s) **less than -2.00** (for example, -3.00% or -4.00%): *These populations may be **under-represented** in the program's customer population.*

Male

What factors may be contributing to any under-/over-representation?<sup>5</sup>

Unknown.

Do you believe these results indicate potentially eligible participants are or are not being served?

No

What actions are being taken or can be taken to improve program participation and encourage enrollment of populations that are under-served? (Note: Depending on the applicable federal programs, recipients may be required to take reasonable steps to conduct outreach to under-represented communities. Recipients may contact the appropriate state agency for additional information on outreach.)

Outreach to populations identified as under-served through other service programs. Ensuring "other" is a data set being collected for customers.

It may be that denials of service (including negative decisions, licensing activities, etc.) contribute toward lower-than-expected participation of a particular category. Explain whether such denials have been disproportionate for any specific protected groups within the one calendar or program year you looked at to complete the CSPA table:

Denials have not contributed to a lower-than-expected participation of a particular category.

<sup>4</sup> Over-representation may reflect the recipient is meeting the needs of that category, outreach efforts to that category are successful, or other factors that make that category more likely to be served. Over-representation of one category is not necessarily a sign that the program is not serving all of the categories of population equally, but it does mean one or more of the other categories may be under-represented.

<sup>5</sup> Although error in the data may explain some (or all) of the difference, especially for smaller populations, be sure to evaluate all possible factors before attributing differences to error in the data.

### Customer Service Population Data Analysis

List the population(s) in the CSPA data chart with Percentage-Point Difference(s) **greater than 2.00** (for example, 3.00% or 4.00%):  
*These categories may be **over-represented** in the program's customer population.<sup>4</sup>*

Female

List the population(s) in the CSPA data chart with Percentage-Point Difference(s) **less than -2.00** (for example, -3.00% or -4.00%):  
*These populations may be **under-represented** in the program's customer population.*

Male

What factors may be contributing to any under-/over-representation?<sup>5</sup>

Data is not adequately collected.

Do you believe these results indicate potentially eligible participants are or are not being served?

No

What actions are being taken or can be taken to improve program participation and encourage enrollment of populations that are under-served? (Note: Depending on the applicable federal programs, recipients may be required to take reasonable steps to conduct outreach to under-represented communities. Recipients may contact the appropriate state agency for additional information on outreach.)

Improve data collection of actual customers served.

It may be that denials of service (including negative decisions, licensing activities, etc.) contribute toward lower-than-expected participation of a particular category. Explain whether such denials have been disproportionate for any specific protected groups within the one calendar or program year you looked at to complete the CSPA table:

Denials have not contributed to a lower-than-expected participation of a particular category.

<sup>4</sup> Over-representation may reflect the recipient is meeting the needs of that category, outreach efforts to that category are successful, or other factors that make that category more likely to be served. Over-representation of one category is not necessarily a sign that the program is not serving all of the categories of population equally, but it does mean one or more of the other categories may be under-represented.

<sup>5</sup> Although error in the data may explain some (or all) of the difference, especially for smaller populations, be sure to evaluate all possible factors before attributing differences to error in the data.

### Customer Service Population Data Analysis

List the population(s) in the CSPA data chart with Percentage-Point Difference(s) **greater than 2.00** (for example, 3.00% or 4.00%):  
*These categories may be **over-represented** in the program's customer population.<sup>4</sup>*

Non-white, Other, and Female

List the population(s) in the CSPA data chart with Percentage-Point Difference(s) **less than -2.00** (for example, -3.00% or -4.00%):  
*These populations may be **under-represented** in the program's customer population.*

Male, white

What factors may be contributing to any under-/over-representation?<sup>5</sup>

The County is not collecting on "more than one race" also collecting "unknown" vs "other" Unknown is being used in the place of other. There is no collection model for other on this worksheet.

Do you believe these results indicate potentially eligible participants are or are not being served?

No

What actions are being taken or can be taken to improve program participation and encourage enrollment of populations that are under-served? (Note: Depending on the applicable federal programs, recipients may be required to take reasonable steps to conduct outreach to under-represented communities. Recipients may contact the appropriate state agency for additional information on outreach.)

Improve data collection of actual customers served.

It may be that denials of service (including negative decisions, licensing activities, etc.) contribute toward lower-than-expected participation of a particular category. Explain whether such denials have been disproportionate for any specific protected groups within the one calendar or program year you looked at to complete the CSPA table:

Denials have not contributed to a lower-than-expected participation of a particular category.

<sup>4</sup> Over-representation may reflect the recipient is meeting the needs of that category, outreach efforts to that category are successful, or other factors that make that category more likely to be served. Over-representation of one category is not necessarily a sign that the program is not serving all of the categories of population equally, but it does mean one or more of the other categories may be under-represented.

<sup>5</sup> Although error in the data may explain some (or all) of the difference, especially for smaller populations, be sure to evaluate all possible factors before attributing differences to error in the data.

White, Other, Female, Disabled.

What factors may be contributing to any under-/over-representation?<sup>5</sup>

The non-white population in Richland County makes up less than 3% of the population. This means any representation of these populations in customers served creates issues with over and under representation.

Do you believe these results indicate potentially eligible participants are or are not being served?

Results indicate that potentially eligible populations are being served.

What actions are being taken or can be taken to improve program participation and encourage enrollment of populations that are under-served? (Note: Depending on the applicable federal programs, recipients may be required to take reasonable steps to conduct outreach to under-represented communities. Recipients may contact the appropriate state agency for additional information on outreach.)

Outreach to populations identified as under-served through other service programs. Ensuring "other" is a data set being collected for customers.

It may be that denials of service (including negative decisions, licensing activities, etc.) contribute toward lower-than-expected participation of a particular category. ### Customer Service Population Data Analysis

List the population(s) in the CSPA data chart with Percentage-Point Difference(s) **greater than 2.00** (for example, 3.00% or 4.00%):  
*These categories may be **over-represented** in the program's customer population.<sup>4</sup>*

Non-White, Male, Other

List the population(s) in the CSPA data chart with Percentage-Point Difference(s) **less than -2.00** (for example, -3.00% or -4.00%):  
*These populations may be **under-represented** in the program's customer population.*

White, Female, Disabled.

What factors may be contributing to any under-/over-representation?<sup>5</sup>

Data is not correctly or adequately collected.

Do you believe these results indicate potentially eligible participants are or are not being served?

No

What actions are being taken or can be taken to improve program participation and encourage enrollment of populations that are under-served? (Note: Depending on the applicable federal programs, recipients may be required to take reasonable steps to conduct outreach to under-represented communities. Recipients may contact the appropriate state agency for additional information on outreach.)

Improve data collection of actual customers served.

It may be that denials of service (including negative decisions, licensing activities, etc.) contribute toward lower-than-expected participation of a particular category. Explain whether such denials have been disproportionate for any specific protected groups within the one calendar or program year you looked at to complete the CSPA table:

Denials have not contributed to a lower-than-expected participation of a particular category.

<sup>4</sup> Over-representation may reflect the recipient is meeting the needs of that category, outreach efforts to that category are successful, or other factors that make that category more likely to be served. Over-representation of one category is not necessarily a sign that the program is not serving all of the categories of population equally, but it does mean one or more of the other categories may be under-represented.

<sup>5</sup> Although error in the data may explain some (or all) of the difference, especially for smaller populations, be sure to evaluate all possible factors before attributing differences to error in the data.

**Services to LEP Language Groups**

Please check all that apply to recipient's service to the eligible language groups in your service area:

- Oral interpretation is provided upon request at no charge to an LEP customer.
- We hire bilingual staff with demonstrated proficiency in English and a second language, who are knowledgeable of specialized terms and concepts in English and the language they interpret, and who have received training on skills and ethics of interpretation. (Training can be provided in-house or by an external agency. Documentation of language ability, training on specialized terms and concepts, and training on skills and ethics of interpretation should be maintained.)
- We routinely collect information regarding the LEP participant's preferred primary language. The language information for each client is part of our database.
- We have identified and inventoried all vital documents for our programs or services, and the inventory list is available for inspection.
- We routinely maintain a record of the number of language interpretation services that we offer and that we provide to LEP customers, on what date, how interpretation was provided (e.g., in person or by telephone), and in what language.
- The eligible LEP population that is likely to be encountered in our service area constitutes 5% or 1,000 persons; therefore, we provide written translation of vital documents.
- Where there are fewer than 50 people in the language group that reaches the 5% trigger, we provide written notice to those LEP groups in their primary language of their right to receive oral language interpretation and written vital materials, free of cost.
- For all documents, vital or otherwise, we provide meaningful access to LEP individuals in all language groups. Meaningful access may be providing translation of the information orally.

# Appendix E: LEP Policy Statement, and Acknowledgement and Refusal of Free Interpretation Services Form

## LIMITED ENGLISH PROFICIENCY POLICY STATEMENT

Richland County (the entity) is committed to providing equal opportunity in all programs, services, and activities to individuals who do not speak English as their primary language and who have a limited ability to read, write, speak or understand English. Those individuals are referred to as limited English proficient, or "LEP." Meaningful access to Federally funded programs and activities is required by Title VI of the Civil Rights Act of 1964 and its implementing regulations.

Meaningful access to LEP individuals is provided in two ways: oral interpretation and written translation. Oral interpretation can range from on-site interpreters for critical services provided to a high volume of LEP persons, to access through commercially available telephonic interpretation services. Written translation can range from translation of an entire document to translation of a short description of the document.

The entity fulfills this obligation by one or more of the following: hiring bilingual staff, hiring staff interpreters/translators, contracting for interpreters/translation services, using telephone interpreter lines, and/or using community volunteers. The entity understands that the interpretation/translation must be performed in a competent, confidential, ethical, and accurate manner at no cost to the LEP individual. The entity does not rely on the LEP individual to provide an interpreter.

If an LEP person requests to use a family member, friend or other adult as an interpreter, the entity makes the LEP person aware that the entity will provide a qualified interpreter at no cost to the LEP person. The entity respects the LEP person's choice of interpreters. If the LEP person chooses a family member, friend, or other adult to interpret instead of one provided by the entity, the entity makes a record of that decision. If the entity believes the interpreter selected by the LEP person is not competent or appropriate, the entity supplements with its own qualified interpreter. Minors should not act as interpreters unless there is an emergency situation and another interpreter is not immediately available.

The entity records the number and date of instances in which interpretation was offered, what service was offered (e.g., staff, in-person contracted, telephone, etc.), whether it was accepted or whether the LEP individual selected their own interpreter, and in what language group the service was needed.

This entity monitors its changing demographics and population trends on an annual basis, to ensure awareness of the language needs in its service area.

The entity requires its subrecipients to comply with the LEP policies requirements.

To assist us in complying with all applicable limited English proficiency rules, regulations, and guidelines, the LEP Coordinator is:

Clinton Langreck, 608-649-5960

LEP customers are encouraged to ask for language assistance or discuss any perceived discrimination problems with him/her. Information about discrimination complaint resolution process is available upon request.

Federal civil rights laws prohibit discrimination of MEMBERS, APPLICANTS, ENROLLEES, AND BENEFICIARIES in any programs and activities that receive Federal financial assistance and that are run by State Agencies (DHS/DCF) directly or by their partners, local agencies, and contractors. Those laws prohibit recipients and subrecipients of Federal financial assistance from discriminating on the basis of race, color, national origin, sex, age, disability, and, in some programs, religious creed or political affiliation or beliefs, in their programs or activities, and in retaliating or engaging in reprisals against for opposing discrimination. If you were wrongfully denied services, or if the treatment you received was separate or different than others received, or if the program was not accessible to you, and you believe it was because of one or more of those protected bases, it may be discrimination. The precise nondiscrimination requirements depend on which Federal agency funds the program or activity.

Name of the Agency/Organization/Entity against whom the complaint is filed.

Name of the Federal program you were discriminated in by the agency/organization (e.g., BadgerCare, FoodShare, Child Protective Services, etc.)
